MARKET UPDATE

JCI slightly rose by 0.32% MoM in Aug 2023 despite Rp23.7tn net outflow from foreign investors that mostly took some profits during the month. In Aug, market focused on the political development in Indonesia, domestic macro and global market condition especially from the US and China. Indonesia's fundamental economic data remains solid with real GDP growth accelerated to 5.2% YoY in 2Q23 from 5.0% YoY in the previous quarter contributed by domestic demand that has been picked up from consumption, investment and government expenditure. BI maintained the policy rate at 5.75% and continued to deploy non-interest rate measures. However, we expect foreign investors to be in the wait-and-see mode for a while to assess the political development in Indonesia. Sector booked mixed with IDX Basic Materials and IDX Sector Infrastructure performed the best during the month of 9.81% and 6.24% respectively over the positive sentiment towards the green energy and improved copper price. Meanwhile, IDX Sector Technology recorded as the worst performing sector during the month of -5.81% as sentiment on this sector have not yet improved and rising competition.
