MARKET UPDATE

IDX80 increased by 0.33% in February. In comparison, JCI posted a return of 1.50% MoM to 7316.111 level with foreign inflow of Rp10.1tn. In the beginning of the month, there were a lot of anticipation around the election, however, the market rallied strong with foreign piling into Indonesia as investors seem to be priced in one round of election hence reducing the potential uncertainties in the coming months. The quick count result indicated Prabowo-Gibran to have won the election which is viewed positively by the market due to expectations of continuation of policies from the current Jokowi administration. The official result will be out at the end of March after the recapitulation which would be followed by the cabinet announcement. Banking sector, primarily the big 4 banks, experienced a strong gain due to post-election effect and solid FY23 results. Market is currently, closely monitoring developments between the political parties as well as rumors on cabinet reshuffles. Meanwhile, Indonesia's 4Q23 GDP growth managed to rebound above 5% after a slowdown in 3Q23. Towards the end of the month, we saw some profit taking actions started by the locals and followed by the foreign after the market rallied earlier in the month. Higher US inflation and noises of Fed's hawkish statements also created shakeups in the market towards the end of February. The top contributors IDX80 were Bank Rakyat Indonesia/BBRI (+7.46%), Bank Mandiri/BMRI (+5.26%), Bank Central Asia/BBCA (+3.40%), Bank Negara Indonesia/BBNI (+4.35%) and Indosat/ISAT (+19.32%), while top detractors IDX80: GoTo Gojek Tokopedia/GOTO (-19.32%), Chandra Asri Pacific/TPIA (-15.19%), Merdeka Copper Gold/MDKA (-16.30%), Barito Pacific/BRPT (-8.02%) and Unilever Indonesia/UNVR (-11.94%).
