MARKET UPDATE

In the fixed income market, BI unable to further cut rates in June as the meeting was held too close to Israel-Iran escalation hence BI was in a “wait-and-see” mode. IndoGB remains resilient, it enjoyed rally with 10-year traded 21bps lower to 6.62%. Foreign investors posted a net sell of Rp7.6tn in IndoGB and percentage ownership is maintained at 14.56%. Sekuritas Rupiah Bank Indonesia (“SRBI”) rates remained at 6.2-6.3% level for 12-month tenor. One-year government bond rallied by 25bps to 5.80%. In the money market funds, investments in bond maturing less than one year remains favourable compared to deposit rates. Large maturing SRBI in June likely helped with demand from Banks, and the trend likely to continue in July, assuming Rupiah does not depreciate significantly. In the month of June, JCI posted a return of -3.46% MoM with foreign outflow of Rp8.4tn. Indonesia equities returned to negative territory as foreign investors resumed their selloff during the month mainly from the big banks due to FTSE rebalancing while concerns on weak growth and corporate earnings. Domestic investors were very cautious with on the ground macro conditions as weak purchasing power and slow government spending may hit its toll on businesses and potentially on banks’ earnings. Market volatility was added with the Israel-Iran conflict in the middle of the month which sparked fear of overshoot in oil price which is bad for Indonesia as a net importer of oil. The US’ involvement and Iran’s threat to close the Strait of Hormuz also added uncertainties though the conflict managed to de-escalate which bring oil price back down while gold price remained flattish yet elevated. Bank Indonesia maintained its rate despite investors’ expectation of another round of rate cut during the month. Meanwhile, Danantara’s more active role in seeking potential investment target within public equities also drove the market to some extent.
