MARKET UPDATE

In the month of August JCI recorded another rally, increase by +4.63% MoM, outperforming the global market, though mainly driven by non-IDX30 names (conglomerate groups) similar to the previous month. Large cap stocks briefly rallied up to 4% mid-month on improved sentiment ahead of Independence Day, though the momentum reversed toward month end as political tensions and nationwide protest weighed on investors confidence. Foreign investors turned as a net buyer of Indonesian equities in August, with an inflow of USD439mn, reducing total YTD net equity outflow to USD1.5bn. However, majority of the inflow was mainly due to MSCI rebalancing, where Indonesia added two additional names to the index. Regardless, this pushed foreign equity ownership up by 42bps, to 21.9%.
